

## MP Booster

### An innovative cleaning solution to meet your needs

A complete range of MP Boosters build on a stainless steel frame, with a water consumption from 100 to 1100 l/min. for simultaneous operation from 3 to 30 users at a pressure from 28 to 40 bars. Pump sets with one frequency controlled pump to ensure a smooth and even pressure at any time. The MP Booster supplies satellites for rinsing, foam cleaning and disinfection of exterior surfaces in the food and beverage industry.

### Safety first

The MP Booster is equipped with a dry-run protection and a temperature monitoring to protect the pumps from cavitation and overheating.

### Benefits

- Adjustable outlet pressure from 28-40 bar
- Dry run protection
- Temperature monitoring
- Large water consumption
- Reliable and user friendly
